So the health insurance has officially ended. I am looking into getting a membership called direct primary care. They have a doctor here in McKinney and you just pay monthly for the membership and you get your basic healthcare needs whenever you need. It's just healthcare, no vision or dental. I can get Lainey on it, but the doctor is down here so I don't know if you plan on moving back down or are gonna stay up there. I'm surprised State Farm has let you go this long WFH. I was hoping they would reschedule this mediation already so I don't know what's going on with that. I also would like to spend some time with Lainey this month so I don't know if you want to wait until mediation is done, but I would definitely like to spend at least a month with her or a couple weeks at least. I am asking you first so we could work something out otherwise I will have to get another court order and then we have to figure out a schedule going forward. Feel free to call if you want to instead of texting.

How's baby girl doing? Any new pics?

I appreciate you sending the pictures, but I would appreciate a response of some kind regarding health insurance and visitation and stuff. I'm trying to understand why you are not communicating with me. Something I did or didn't do? I'm confused. It's so much easier if we can work each other I mean we have to deal with each other for the next 14+ years! Lol

Heathies

Please do whatever you need to do to get Lainey on insurance. As far as visitation, you are welcome to see her any time, just keep in mind that she is in school full time and has a stable, established routine.

Carlos

OK, I will look into the insurance and I understand she's in school and has a routine but the reality is I'm down here and you're up there so the routine is gonna be affected. So what kind of schedule would you be comfortable with? I'm not staying up there so we will have to meet halfway.

Carlos

This is an assumption and I realize that, but when you say stable, established routine i'm assuming you are planning on staying and living up there which is fine but I would like to know so I can make plans down here.

I'm looking at freemarketphysicians.com. They have doctors up there.
